# Benefits of online learning

Classroom training is quickly becoming redundant, with online learning proving to be much more beneficial to students in a varied number of ways.

## Study when it suits you

- ✓ Online learning is flexible
- ✓ Learn at your own pace - you aren't restricted by a rigid timetable of lectures
- ✓ Training is there whenever you are ready to use it

## Real-life practical skills

- ✓ Industry standard certifications will give you confidence to apply knowledge within a real-life professional situation
- ✓ Certifications are used by employers as a benchmark in applications, because they indicate the knowledge needed to complete tasks using trusted methods

## Investing in your career

- ✓ Learn from home, so no travel costs
- ✓ Keep your current job, and study whenever it suits you
- ✓ Online courses are only a fraction of the cost compared to university degrees

## Regularly updated course content

- ✓ Online courses are updated far more regularly than university education
- ✓ Industry experts review course content to ensure it is inline with current industry needs
- ✓ Courses shaped with your employability in mind

## Personalised learning

- ✓ Online training has much more scope for flexibility, compared to traditional university education
- ✓ Learning People offer personalised training packages, based on your unique career goals and learning needs

# Certified Ethical Hacker (C|EH)

## Course overview

Since its inception in 2003, the Certified Ethical Hacker has been the industry's number 1 choice of professional certification across the globe. The course covers attack technologies, commonly used by hackers and teaches you exactly how to fight back against these attacks.

This qualification will give you the skills to look for weaknesses and vulnerabilities in target systems and will show that you've got the same knowledge and tools as a malicious hacker, but can use them in a lawful and legitimate manner.

Our **exclusive partnership** with EC-Council means that we're now the singular reseller of their cyber security and Certified Network Defender courses.

# Celebrating ten years

## 10 years of Learning People

Fueled by a passion for affordable and accessible online training, **Patrick Aylmer** founded Learning People in 2010. His experience in the education industry led him to identify the UK's demand for online learning.

Having joined recently bringing a wealth of experience, our CEO **Sam W Pemberton** has continued with Learning People's mission towards closing the global tech skills gap through the industry's top online training and certifications.

Now a rapidly growing global team, Learning People offer a library of certifications in **project management, IT, code** and **digital marketing**. We work with industry-leading accreditors and partner with some of the tech industry's top career-ready education providers.

“

***We are very proud of how we help our students begin or accelerate their career in tech and it is clear that our career consultants are truly world class in guiding candidates on the correct tech career learning pathway.***

**- Sam W Pemberton,  
Learning People CEO**

“

***I've always loved the power that online education can deliver. It opens up incredible opportunities for people, particularly in the tech space.***

**- Patrick Aylmer,  
Learning People Founder**

# 10 years of student success

We're overwhelmed by student stories we've been sent over the years, here are some highlights:

## Adrian Tolliday •

Adrian began his journey with us unemployed, and then **went on to project manage** the Bu Tinah Dome project for Abu Dhabi Environment agency.

2011

## • Gary McAdam

Gary didn't have any IT credentials to support his experience and wanted a course that was real value for money. After training, Gary **landed his first job in 2 years**.

2012

## Albert Adebajo •

Albert didn't think he had many career progression options in his existing job. Within a year of training with us, he **landed a new role** as a project coordinator at global organisation, Capita.

2013

## • Tomasz Skowron

Tomasz was working as a junior support engineer, looking to validate his skills to support his career plan. Our training secured him a **salary increase** and has left him feeling confident in **new opportunities** of career progression.

2014

## Igor Tovpinec •

Beginning his journey with no project management experience, Igor was seeking a **motivating career change**. Following training with us he landed a role as a Construction Site Manager.

2015

## • Jake Peek

Jake left behind a career in criminal law to start his own company. Through his training, **he was able to develop his own software and start his business**.

2016

## Roland Gent •

Feeling demotivated and trapped in a telesales job, Roland reached out for help. He finished the training with an exciting new role in digital marketing, feeling more **confident about his career** ahead.

2017

## • Spencer Barriall

After gaining a degree in Computer Science, Spencer found he needed a course that focussed further on the **real-life practical skills**. He excelled in the course and is now working full-time as a developer.

2018

## Azhar Chaudri •

Azhar was fast approaching 50 years old and decided to take control of his career and **upskill** into cyber security. With the help of our Career Services, Azhar **landed his dream role** in the industry.

# Student testimonial: Bohdi James Hardcastle

---

## Reason for enrolling

Bohdi wanted to upskill with a certification to open up opportunities as an ethical hacker.

“*[The Certified Ethical Hacker collection] has changed my life by providing new income opportunities for myself and my family and it’s also something that I have thoroughly enjoyed doing.*”

# Map out your career path

Last year we were proud to launch innovative new career pathway tools on our website to help our students plan careers in project management, cyber security, IT, digital marketing and code.

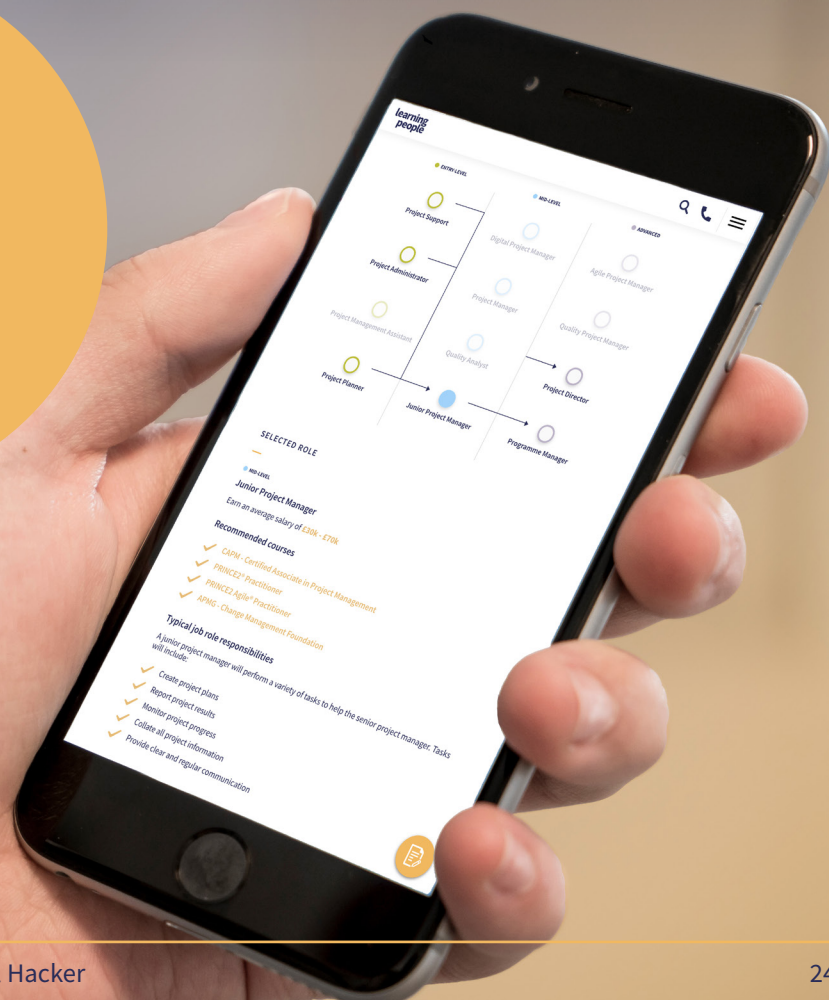

So far we've had a great reaction from people who have used them, and hope you will find them of use when planning your own pathway.

These interactive guides will help you;

- ✓ identify how to advance in your chosen career
- ✓ gain salary expectations
- ✓ discover recommended courses to suit your career goals
- ✓ understand typical role responsibilities and required skills

Check them out for yourself by visiting [www.learningpeople.com](http://www.learningpeople.com)
